

Andy Bae

Game Producer

- **7+ years** of professional experience developing indie and AAA games as a producer, project manager, game designer, narrative designer, and QA
- Specialized in **cross-disciplinary communication**, directing priorities and milestones to satisfy target audiences, stakeholders, and **technical constraints**
- Produced and directed development for "[Yet Another Killing Game](#)", a highly rated **self-published indie game** on Steam with avid fans and high sales metrics

EXPERIENCE

Soulseer Studios (02/2024 - 11/2025)

Director / Producer / Game Designer

Recruited and led a remote team for a bootstrapped story-rich indie game, which exceeded sales targets by 200% in under 6 months.

- Managed a **10-month production pipeline** using spreadsheets and kanban boards for art, audio, and music to meet monthly milestones without fail.
- Assigned, negotiated, and tracked tasks for 10+ team members, addressing blockages and feedback to ensure high quality and **zero production delays**.
- Drove game marketing and outreach, creating engaging content to raise wishlists, sales, and other KPIs, **exceeding lifetime targets** in 6 months.
- Led all agreements for revenue share and in-person event appearances.

This Game Studio (10/2022 - 10/2023)

Game Designer

Collaborated closely with 5+ senior executives to design and introduce 1 year of major content updates for EverMerge, a **top-selling F2P mobile game**.

- Designed 10+ new features to improve quality of life and **KPIs**, presenting slide decks and mock-ups via **Adobe Photoshop** and Google Suite.
- Directed localization processes and improvements through **Jira** to increase efficiency across all departments, including **external partners in the US**.
- Authored 100+ lines of game text and dialogue for a custom Unity system, **collaborating daily with engineers** and artists for quality assurance.

Virtro Entertainment (07/2020 - 03/2022)

XR Simulation Designer

- Led designs for branching storylines and **5+ custom Unity systems** for a multilinear VR series pilot backed by the Canada Media Fund.
- **Directed writers** and programmers in setting up live updates of 1000+ dialogue lines in a proprietary conversation simulation engine.
